A J FRANCISCO, READ THE LATEST NEWS! The Southerner PATENT HOT AIR DRAUGHT, And Complete Cooking

STOVES THE wonderful effects of this Invention must be witnessed to be believed. It Requires Less Wood for Baking

WE would invite the attention of friends to the fact that there has never been any change in the style of our firm, and that there is no probability of being any oct2-3m than is consumed in kindling fires in ordinary ovens and Stoves. ONE CORD OF HARD WOOD WE have on sale a fine Brett Carriage, second hand;
One Phaeton Carriage, new; One superb Barouche,
second hand; One large Family Carriage, second hand;
Fine second hand Plano, good make. All of which
will be sold very cheap, to close, by
BENJ. F. SHIELDS & CO.,
sept20-tf Central Auction Reoms, 27 College st.

Will be sufficient to cook in it for a family a whole year. It cooks in about one half the time ordinarily required, and the heat is regulated with such precasion that scarcely any skill or care is necessary to cook with absolute perfection. Meats are roasted thorougally with the most desirable uniformity, and come from it to the table juicy and tender. Bread is baked with or without a hard crust, as desired, and will remain fresh and soft much longer than bread baked in other ovens. Another very important advantage is, that the stove when cooking ordinarily gives out so little heat to the surrounding air that it will not kindle friction matches laid upon it, so that in summer it scarcely heats the room at all; but in winter, by opening one of the doors, it will heat the room with about one-fourth the wood required by any stove in use.
